

Mehmetcan Gültekin

Computer Engineer

As a dedicated and innovative computer engineer, I have experience in image processing, application development and project management. Apart from these areas, I am interested in supercomputers and network technology. I improved myself on how to communicate better with my teammates in the project management part that I had previously experienced. In every project, I move with an innovative perspective and constantly strive to achieve the best results. This passion and determination helps me become a better engineer every day and further my career achievements. I aim to make a difference in the technology world by constantly improving myself and approaching each project with a new perspective.

04/2024 - 08/2024

Schmalkalden

Computer Engineering (Full Scholarship) (English)

Istanbul Beykent University

2019 - 01/2025

3,34

Electrical - Electronical Engineering (Double Major) (Full Scholarship) (Turkish)

Istanbul Beykent University

2021 - 07/2025

3,39

EXPERIENCE

Graduation Project EduBud

<https://github.com/mehmetcang/EduBud-Online-Social-App-main>

- EduBud is a mobile application developed with Flutter to eliminate the lack of Turkish resources in intermediate level departments and courses and to create a warmer, more friendly study ecosystem.
- As part of the Computer Engineering graduation project at Istanbul Beykent University, my friends Seyidcem Öztürk, Samet Gülbudak and I, under the guidance of Dr. Ediz Şaykol, conducted a study titled "EduBud"

Software Intern Sinerji Bilişim

11/2023 - 01/2024

Istanbul

Software Intern Bahadır Cerrahi Aletler

09/2024 - 10/2024

Samsun

Achievements/Tasks

- Web development was done using Asp.net core and typescript

Project Team Member

Google Gaming and App Developer Academy

06/2022

ABILITIES

Python

Angular

React

Asp.Net Core

Next.js

Spring Boot

Java

Flutter

OpenCV - Image Processing

C#

C++
